

FORUM REGISTER

Step 1.

Go to "[Forum](#)" in the main navigation menu.

Step 2.

In the Forum submenu, click on the "[Register](#)" button.

Step 3.

Fill in the fields with a **valid username and email address**. The username must be unique for each user, the email address must be valid, that is where you will receive a link to set the password.

Check the acceptance box and click on "Register" button.

The screenshot shows the forum registration page. At the top, a navigation bar contains links for Forum, Members, Last posts, Register, and Login. The Register link is highlighted with a red box. Below the navigation bar, the page title is "Forum - Registration". The registration form is titled "Join us today!". It contains the following fields and elements:

- Username ***: A text input field containing "test". Below the field, it says "Length must be between 3 characters and 15 characters." The field is highlighted with a red box.
- Email ***: A text input field containing "alain.arsene@uah.es". The field is highlighted with a red box.
- Agreement**: A checkbox that is checked, with the text "I agree to receive an email confirmation with a link to set a password." Below it, a small information icon and text state "After registration you will receive an email confirmation with a link to set a new password." The checkbox is highlighted with a red box.
- Buttons**: A blue "Register" button and a dashed "Login" button. The Register button is highlighted with a red box.

On the right side of the page, there are sections for "Archives", "Categories", "Meta", "Log in", "Entries feed", "Comments feed", and "WordPress.org".

Step 4.

In the email address you used to register, you will receive an email with your username and a link to set your password. Open the link directly or copy it manually in your browser.

If you have not received the email in your inbox, please, **check your spam email.**

Step 5.

Once you have opened the link, you will be redirected to a website where you can set your password (the password must have at least 12 characters).

Enter the same password twice and then click on the "Reset Password" button.

A screenshot of a web browser showing the 'Reset Password' page. The page has a dark navigation bar at the top with links for 'Forum', 'Members', 'Last posts', 'Profile', and 'Logout'. Below the navigation bar, there is a 'Forums' breadcrumb and the title 'Reset Password'. The main content area contains a form with two input fields: 'New password' and 'Repeat new password'. Below the fields is a hint: 'Hint: The password should be at least twelve characters long. To make it stronger, use upper and lower case letters, numbers, and symbols like ! " ? \$ % ^ & .'. At the bottom of the form is a blue 'Reset Password' button. On the right side of the page, there is a sidebar with sections for 'Archives', 'Categories', and 'Meta'. The 'Meta' section includes links for 'Site Admin', 'Log out', 'Entries feed', 'Comments feed', and 'WordPress.org'.

Step 6.

Go back to the Forum submenu and this time click on "[Login](#)".

Enter your username and password and click the "Sign In" button.
